I certify that I have read and answered the preceding questions to the best of my knowledge. I also know that both doctor and staff are available to answer any questions that I may have. I authorize the dentist to release any information including the diagnosis and the records of any treatment or examination rendered to me or my child during the period of such dental care to third party payers and/or health practitioners. I authorize and request my insurance company to pay directly to the dentist allowing me to pay only the deductible and copay at the time of service. I understand that my dental insurance carrier may pay less than the estimated benefits; therefore, I agree to be responsible for the payment of all services rendered on my behalf or my dependents'.

FINANCIAL POLICY

Dear Patient:

It is the intention of all our personnel to provide you with quality dental care as thoroughly and efficiently as possible. In addition, we will endeavor to make your visit with us a pleasant and comfortable one!

The following is our office policy regarding payment for dental services rendered:

A. Payment in full at each visit is the office policy. Your insurance will be processed for you but your entire portion is expected at the time services are rendered.

B. Payment in full within 28 days of first billing. (No finance charge) A 10% annual finance charge will be added to any monthly balance not paid within billing cycle. No balances are to remain on account beyond the third billing cycle, which is 90 days. Any balance in the 90 days past due will have a carrying charge added to the total each month.

C. Insurance - In order to fully cooperate with families who are assisted by dental insurance, we ask that you be prepared to supply the following: an insurance form with name and address of your insurance company and policy numbers when you arrive for treatment. Also, expect to pay your deductible and any portion not covered by insurance at the time of service. Typically, there is an annual \$50.00 deductible. We will promptly fill out insurance claims to assist you in receiving the maximum benefit from your insurance company.

All policies have limitations and some may not cover 100% of the fee for services. Please remember that although we will assist you with your claim, you are personally responsible for payment of fees. In the event your insurance company does not pay within 60 days of filing your claim, you will be required to make other arrangements with us. We will preauthorize treatment so you can better understand your benefits of various procedures. A preauthorization is an estimation of coverage, based on insurance usage received. In the event that your insurance does not make payment within 45 days, you then become responsible for the remaining balance. It is your responsibility. To supply us with the proper insurance company and supply the insurance company with any additional information they may request regarding work or school.

We do cooperate with various insurance payment schedules but not all. Additionally, know that we do not adjust any tooth colored restorations for any insurance plan. This is the only exception. We routinely place tooth colored restorations but you may choose amalgam. If amalgam (silver) is your preference then it is your responsibility to inform us prior to treatment.

In case of default of payment for any services completed, I agree to pay reasonable and just attorney and collection fees incurred by Mary Ellen Hoyer D.D.S. and Associates in enforcing the collection of my account if the payment is not forthcoming within a reasonable amount of time. I understand and agree to the above financial agreements.

We may contact you via e-mail, if you have provided us with your address.

DATE

FYI: our appointment policy is as follows: If you need to change your appointment, at least 24 hrs. notice is required so that we may accommodate others. Otherwise, repeated failure to do so will result in a \$25.00 charge per half hour missed. We understand emergencies arise, but remember for every appointment you make and fail to keep, another patient has been forced to wait for their dental care.
